Description: Orfélia music is based on Brazilian and Portuguese music, such as Bossa Nova, Samba, Samba Rock and Fado. But these genres are references to a very unique sound. The band creates songs that explore the shared, personal and unexpected connections of these two countries as of the band leaders, Anaïs Thinon and Filipe Jahn. The concert has songs that reflect different feelings and stories. Some are very intimate, others are very intense – dynamics plays a big part in Orfélia's music.
